Management's Discussion & Analysis
for the 2nd Quarter Ended February 28, 2018
(and containing information as April 27, 2018)

OVERVIEW

The following Management Discussion and Analysis ("MD&A") is a review of the operations, current financial position and outlook for International Montoro Resources Inc. ("IMT", "Montoro" or the "Company") and should be read in conjunction with the Unaudited Financial Statements for the Period ended February 28, 2018 and comparative for the Unaudited Period Ended February 28, 2017 and the related notes thereto, copies of which are filed on the SEDAR website: www.sedar.com.

The Company prepares its financial statements in accordance with International Financial Reporting Standards ("IFRS"). All dollar figures included herein and in the following discussion and analysis are quoted in Canadian dollars unless otherwise noted. The financial information in the MD&A is derived from the Company's financial statements prepared in accordance with IFRS.

Forward-looking Statements and Information

This Management Discussion and Analysis ("MD&A") contains certain forward-looking statements and information relating to International Montoro Resources Inc. ("IMT", "Montoro",or the "Company") that are based on the beliefs of its management as well as assumptions made by and information currently available to IMT. Forward-looking statements are projections of events, revenues, income, future economic performance or management's plans and objectives for future operations. In some cases, you can identify forward-looking statements by the use of terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential", or "continue" or the negative of these terms or other comparable terminology. Examples of forward-looking statements made in this MD&A include statements about the Company's business plans, the costs and timing of its developments; its future investments and allocation of capital resources; success of exploration activities; requirements for additional capital; and government regulation of mining operations. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including: general economic and business conditions, fluctuations in worldwide prices and demand for minerals; our lack of operating history; the actual results of current exploration activities; conclusions or economic evaluations; changes in project parameters as plans continue to be refined; possible variations in grade and or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes or other risks of the mining industry; delays in obtaining government approvals or financing or incompletion of development or construction activities, any of which may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements and any assumptions upon which they are based are made in good faith and reflect our current judgment regarding the direction of the Company's business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. Except as required by applicable law, including the securities laws of Canada, the Company does not intend to update any of the forward-looking statements to confirm these statements to actual results.

Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources. This discussion may use the terms “measured resources” and “indicated resources”. The Company advises investors that while those terms are recognized and required by Canadian regulators, the U.S. Securities and Exchange Commission does not recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves.**

DESCRIPTION OF THE COMPANY’S BUSINESS

The Company was incorporated January 30th, 1987 under the laws of the Province of British Columbia and is listed on the TSX Venture Exchange (“TSX-V”) as a Tier 2 mining exploration Issuer. The shares of the Company trade on the TSX-V under the symbol “IMT”.

The Company is engaged in exploration and development of mineral properties, focusing on projects in British Columbia, and Ontario, Canada. At this time, the Company does not own any operating mines and has no operating income from mineral production. Funding for operations is raised primarily through public and private share offerings. Future operations and the Company’s ability to meet its mineral interest commitments are dependent on the Company’s ability to raise sufficient funds through share offerings, debt, or operations to support current and future expenditures.

The Company’s long-term objectives will be to:

(a) Continue exploration and development work on its existing mineral properties;
(b) Determine if an economic mineral deposit exists on the mineral properties;
(c) Find one or more economic mineral deposits and bring them to commercial production;
(d) Acquire and evaluate additional complementary mineral properties to expand the Company’s portfolio; and
(e) Deliver a return on capitalization to shareholders.

OVERALL PERFORMANCE AND MINERAL INTERESTS

1.1 Date - April 27, 2018

The following MD&A was approved by the Directors of the Company.

1.2 Mineral Interests:

The following are highlights of the progress on the various mineral projects, during the current year and in the past several years.

(a) Serpent River – Sault Ste. Marie Mining Division – Elliot Lake – Northern Ontario

On December 29, 2006 the Company entered into an agreement to acquire a 100% interest in ten mining claims in the Sault Ste. Marie Mining Division, Elliot Lake area, in Northern Ontario, known as the Serpent River property.

The terms of the agreement included the issuance of a total 100,000 common shares and $500,000 in cash payments at prescribed intervals up to December 12, 2010 (completed). In addition, there is a 2.0% net smelter return relating to the acquisition. The Company may at any time purchase 1.0% of the NSR for $1.5 million.

From **2007 to 2011,** the Company has completed the following exploration work in a number of successive programs:

- A NI 43-101 compliant Technical Report completed by Scott Wilson Roscoe Postle

Associates Inc. (“Scott Wilson RPA”) –**March 2007**

- Roadwork and access to drill sites – **August 2007**
- 12 hole NQ Diamond Drill program on the Pecors Channel (west side of the property), and 4 holes in the Whiskey Channel (east side) Total of 2755 meters –**September 2007 – January 2008**
- Petrographic Analysis of 21 Drill Core Samples –**December 2007**
- Engaged Geotech Ltd. and conducted an airborne “VTEM” electromagnetic survey over the entire property, in conjunction with surveying adjoining properties of Pele Mountain and Verbina Resources. The survey identified several high priority EM conductors – **February 2008**
- Re-assayed 71 pulps from 2007 drill program for a total suite of Rare Earth Elements (REE’s) –**November 2009**
- 5 hole (867 meters) MTW Diamond Drill program exploring a new style of mineralization not previously drilled –**April 2010**
- Geophysical Interpretation of the <u>southern portion</u> of the VTEM survey –**May 2010**
- Reconnaissance program to locate several holes drill by Rio Algom (1959) near the Pecors anomaly. Several holes located, particularly drill hole PW122 drilled to a depth of 450 meters located in the southwest corner of the Pecors anomaly –**June 2011**
- Geophysical Interpretation of the <u>northwest portion</u> of the VTEM survey – Pecors Anomaly –a 3 Dimensional Inversion Response. Further details can be reviewed in the news release as filed on SEDAR and on the Company website –**July 13, 2011**

2012 – 2016 Summary:

- **August 4, 2014 –** L.E. Reed Geophysical Consultant completes a report titled ‘Report on a Review of Airborne EM & Magnetic Surveyng on the Pecors Magnetic Anomaly’
- **April 2015 –** Orbit Garant Drilling Services Inc. (“Orbit”) of Val D’Or, Quebec completes hole PDH-1 at 1,005m. Assays for 19 sampled intervals reported highly anomalous results – See May 25, 2015 news release as filed on SEDAR.
- **May 25, 2015 –** Ronacher McKenzie Geoscience completes a Petrographic Report on the Pecors drill samples.
- **June 2015 –** Orbit collars PDH-2 approximately 650m to the northwest of PDH-1 and drilled to a depth of 1,317m
- **June 2015 –** Lamontagne Geophysics Ltd. completed a BH UTEM 4 downhole probe report on PDH-1.
- **September 2015 –** Crone Geophysics & Exploration Ltd. completed a 3-D Borehole Pulse EM survey on PDH-2. The report is posted on the Company website and highlights were posted in a news release dated October 20, 2015 along with core assay results, and filed on SEDAR.
- **September 2016** – Exploration completed from March 2015 – May 2016 was filed for assessment work purposes and accepted by the Ontario Ministry of Northern Development and Mines keeping the property in good standing until November 2, 2020, with additional reserve dollars approved.

2017 Summary:

November 7, 2017 – The Company signed a ‘Services Agreement’ with Geotech Ltd. to engage Geotech to conduct a ‘helicopter borne’ ZTEM geophysical survey over the Pecors anomaly. The survey area will result in approximately 280 line km. at 200m line spacing. The survey is planned to be completed in early spring 2018 when signal levels in the area are optimal. ZTEM has been successfully applied as follow-up to VTEM over ‘Magmatic Massive Sulphide’ (MMS) Ni-Cu deposits to determine their potential extensions to depth. An announcement of the start date will be news released at that time.

(b) Duhamel Property – Saquenay-Lac-Sain-Jean Region -Quebec

January 26, 2018 – The Company entered into a Purchase Agreement (the "Agreement") to acquire a 100% interest in the Duhamel Property 200 km northwest of the city of Saguenay, Quebec. The Duhamel Property consists of nine (9) mineral claims comprising 500 ha located 14 km west of Arianne Phosphate Inc. – Lac a Paul open-pit phosphate mine.

<u>Geology/ Deposit type:</u> Sulphide mineralization associated to mafic magmatic intrusion.

<u>Historical Exploration:</u> Previous exploration on the property carried by Virginia Gold Mines consisted of high definition airborne mag/EM survey, geological mapping, prospecting and drilling. Some results retrieved from the Quebec Mineral Assessment files indicated drill intersections and are detailed in the news release and filed on SEDAR and the Company website.

All previous work is of a historical nature. The work was conducted prior to implementation of NI 43-101 standards and assay results cannot necessarily be relied upon. International Montoro intends to confirm the reported mineralization with the Company's own sampling program.

<u>Conclusions:</u>
The Company is arranging the staking of additional mineral claims adjoining the original Duhamel property.

<u>Acquisition Terms:</u>

In consideration for a 100% interest in the Duhamel Property, the Company will make the following payments:

(a) Paying to the Vendors the sum of $10,000 Cdn upon signing (paid);

(b) Issuing to the Vendors an aggregate of 1,000,000 common shares of the Company (issued at a value of $55,000);

(c) Paying to the Vendors an additional $50,000, or at the discretion of the Company, additional shares at 12 months from Exchange approval;

(d) Paying to the Vendors an additional $50,000, or at the discretion of the Company, additional shares at 24 months from Exchange approval;

(e) Incurring or funding $150,000 in Exploration on the Duhamel Property:

(i) $25,000 on or before 12 months from Exchange approval;
(ii) An additional $50,000 on or before 24 months from Exchange approval; and
(iii) An additional $75,000 on or before 36 months from Exchange approval. All common shares issued herein will be issued as fully paid and subject to such resale restrictions and hold periods as may be imposed by applicable securities legislation and the Exchange.

In connection with the acquisition, the Company has agreed to pay finder's fees in stages.

The Company is acquiring the Duhamel Property as a secondary property and will continue to focus exploration and development efforts on its wholly owned Serpent River – Pecors Ni-Cu-PGE discovery. The Company anticipates conducting a field exploration program on the Duhamel Property as soon as weather conditions permit.

In the coming weeks, the Company with the Vendors will complete a review of all historic information in advance of the proposed Duhamel Property exploration program.

February 6, 2018 – The TSX Venture Exchange has accepted for filing the Property Purchase Agreement (the "Agreement") to acquire a 100% interest in the Duhamel Property.

The Company has paid the Vendors the sum of $10,000 Cdn., upon signing and have issued the following International Montoro Resources Inc. common shares at a deemed value of $0.05 per share:

(a) 500,000 common shares to Frederic Bergeron, President of Magnor Exploration Inc. ("Magnor");

(b) 500,000 common shares to Christian Tremblay of Quebec.

All common shares issued herein are issued as fully paid and subject to such resale restrictions and hold periods as imposed by applicable securities legislation and the Exchange policy until June 7, 2018.

(c) Other Mineral Interests

The Company holds certain interests in the following properties; however they are no longer management's primary focus:

(i) South Trend/Overtime –Ungava, Ragland area, Quebec: Montoro holds a 1% NSR royalty (with a $1 million buyout provision).

(ii) Crackingstone –Northern Mining District, Uranium City-Saskatchewan: Montoro holds a 50/50 interest with Belmont Resources Inc. in two claim blocks comprising 982 ha. **The Companies are pursuing potential joint venture partners to continue exploration on these properties.**

(iii) Triangle and Orbit Lakes –Northern Mining District, Uranium City-Saskatchewan: Montoro holds a 50/50 interest with Belmont Resources Inc. in claim blocks totaling 11,109 ha. **The Companies are pursuing potential joint venture partners to continue exploration of these properties.**

(iv) Cup Lake/Donen Claims – Greenwood Mining Division – British Columbia

The Company is working with the Vendor to resolve its claim for compensation from the Province of B.C. for the expropriation of the Company's interest in the Cup Lake/Donen property.

1.10 Proposed Transactions/Commitments:

In order for the Company to maintain its interests in its mineral properties, it will be required to make the following option payments: Nil

1.11 Critical Accounting Estimates:

Our financial statements have been prepared in conformity with International Financial Reporting Standards ("IFRS") and form the basis for discussion and analysis of critical accounting policies and estimates. Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Significant financial statement areas requiring the use of management estimates relate to the determination of impairment of assets and resource property interests, and their useful lives for amortization, the fair value of investments and share-based compensation. Financial results as determined by actual events could differ materially from those estimates.

Risk management:

The Company's mineral property holdings and exploration activities create potential exposure to environmental liabilities, including site reclamation. The Company is currently in the initial exploration stages on its Canadian property interests and management has not determined whether significant site reclamation costs will be required. The Company records liability for site reclamation when determinable on a systematic accrual basis in the period in which such costs can be reasonably determined.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they come due. Due to current economic conditions in capital markets the Company has a high risk associated with liquidity. The Company does not hold complex financial instruments or significant long-term assets.

1.12 Changes in Accounting Policies including Initial Adoption:

Certain new accounting standards and interpretations have been published that are not mandatory for the **February 28, 2018** reporting period. The Company has not yet begun the process of assessing the impact that the new and amended standards will have on its financial statements or whether to early adopt any of the new requirements. The following is a brief summary of the new standard:

IFRS 9 Financial Instruments – IFRS 9 is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". The standard is effective for annual periods beginning on or after January 1, 2018 and is not expected to have a material effect on the financial statements.

1.13 Financial & Other Instruments:

The Company's financial instruments consist of cash, amounts due to related parties, promissory notes, and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation.

1.14 Other MD&A Requirements:

Additional disclosure of the Company's material documents, information circulars, material change reports, news releases, and other information related to the Company can be obtained on SEDAR at www.sedar.com as well as the Company's website www.MontoroResources.com

D. EVALUATIONS OF DISCLOSURE CONTROLS AND PROCEDURES

Based on our evaluation **for the period ended February 28, 2018**, and up to the date of this Management Discussion and Analysis, we have concluded that our disclosure controls and procedures are sufficiently effective to provide reasonable assurance that material information required to be disclosed in the Company's interim and annual filings and other reports filed or submitted under Canadian securities laws are recorded, processed, summarized and reported within the time periods specified by those laws and that the material information is accumulated and communicated to Management of the Company, including the President and Chief Financial Officer, as appropriate to allow timely disclosure regarding required disclosure.

E. CORPORATE GOVERNANCE DISCLOSURES

The Company has submitted to its members and shareholders details in the Information Circular **May 23, 2017** Corporate Governance Disclosure guidelines that have been presented to the Board of Directors for period review. Some of those guidelines are: Outlining the Company's business and implementation of appropriate systems to manage any associated risks, communications with investors and the financial community and the integrity of the Company's internal control and management information systems. The Management of the Company periodically updates directors with regulatory policy changes. The Board has found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company. The Company's Information Circular can be reviewed on www.Sedar.com

F. RISKS AND UNCERTAINTIES

The Company's principal activity is mineral exploration and development. Companies in this industry are subject to many and varied kinds of risks, including but not limited to, environmental, metal prices, political and economical. The Company has no producing properties, no significant source of operating cash flow and consequently no sales or revenue from operations. The Company has either not yet determined whether its mineral properties contain mineral reserves that are economically recoverable or where reserves have been determined, mining operations have not yet commenced. The Company has limited financial resources. Substantial expenditures are required to be made by the Company to establish reserves.

The property interests in whom the Company has an option to earn an interest are in the exploration stages only, are without and may not result in any discoveries of commercial mineralization, and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties, which are explored, are ultimately developed into producing mines, the result being the Company will be forced to look for other exploration projects. The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous materials and other matters.
